There is presented here the matter of the appeal from the award of condemnation commissioners in the amount of $59,500 in the condemnation of property on Route 78, Section 3B, Parcels R11A, 11B, 11C, owned by Joseph Cocuzza.

A complaint was filed on June 13, 1966, however, entry occurred on November 20, 1964. Two appraisals submitted in Court were in the amounts of $37,350 and $59,340 and $45,800 and $66,700. The appraisals were written in alternatives depending on a construction of a zoning ordinance. The case was set for trial on Monday, October 23, 1967, while the case was under review. The initial fair market value has been increased from $37,350 to $59,340. The case was settled for $55,000 together with interest at 3 per cent from November 20, 1964, to the date of payment and a consent judgment was entered accordingly. No deposit has been made in Court.

Authorization is requested to pay the Consent Judgment in the amount of $55,000 together with lawful interest as computed by the Bureau of Titles. (November 14, 1967)

131 Right of Way - Route 78

There is presented the matter of the appeal by the State from the award of condemnation commissioners in the sum of $3,340.00. A judgment was entered against the State in the condemnation of property on Route 78, Section 5D, Parcel 37, owned by Morris Eisenberg, et al.

At the trial before the Court and a Jury on October 16, 1967, the owners would have testified to a figure of $6,500.00. Fair Market Value was established in the amount of $2,700.00. Our complaint was filed on June 29, 1966 and a deposit made on July 29, 1966 of $2,700.00. There has been no entry.

The matter was settled on the trial date by the Legal Division for the amount of the award $3,340.00.

Approval of the payment of the Consent Judgment in the amount of $3,340.00 is recommended together with interest from the date of entry of the consent judgment to the date of payment. This total amount includes interest on the sum of $640.00 which represents the excess of the amount of the award over the amount deposited with the Court, from July 29, 1966, the date of deposit, to the date of payment.
(November 16, 1967)

132 Right of Way - Route 80 - There is presented here the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 80, Section 4E, Parcel 76 owned by United States of America; et als.

At the hearing before the commissioners the owners offered no testimony whereas the State offered testimony in the amount of $17,500.00. Fair market value was originally set at $16,400.00, but was re-registered in the amount of $17,500.00. The award was in the amount of $17,500.00.

Approval of the payment of the award of $17,500.00 is recommended which includes interest from the date of the award to the date of payment. Also included in the full amount is interest on the sum of $1100.00 which represents the excess of the amount of the award over the amount deposited into Court, from July 28, 1965 until it was withdrawn August 26, 1966 and from its re-deposit on July 6, 1967, to the date of payment.

(Date of entry was October 8, 1965. The money had been withdrawn in August of 1966 when it appeared that the matter could be settled upon obtaining deeds from the Alien Property Custodian as well as the landowner. However, our Title Bureau stated that this would still leave us with a title problem so the State redeposited $16,400 on 7-6-67.)
November 14.

133 Right of Way - Route 80 - There is presented the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route 80, Section 5E, Parcel R12B, owned by Helen Fitzsimons.

At the hearing before the commissioners the owners offered no testimony as to the value of the taking except to claim damages in the amount of $3,000.00 allegedly caused by the contractor. The State offered testimony in the amount of $200.00 and this was the State's estimate of fair market value.

The award was in the amount of $500.00 to which interest would be added at the rate of 6 per cent from the date of entry, March of 1962, to the date of payment.

In view of the small amount involved payment of the award, with interest as computed by the Title Bureau, is recommended.

97 Right of Way ✓ Route 287

There is presented again the matter of condemnation of property on Route 287 (1953), Section 7, Federal-aid Project I 287-2-(2), Passaic River to Annin Road, Parcel 49, Richard R. Foreman and June M., his wife. Condemnation proceedings were originally authorized on February 14, 1966 for Parcel 49, and the fair market value in the sum of $14,000 representing the value of the property as a partial taking was subsequently deposited in the Superior Court.

Due to the fact that the remaining area of 0.569 acres was so severely damaged by the taking, it is deemed advisable and in the public interest to purchase the remainder which has been designated as Parcel X49B, thus constituting an entire taking. As appraisal has been secured based on an entire taking for

both Parcel 49 and Parcel X49B and the reviewer's registered fair market value determination is in the sum of $22,900.

Authority is therefore requested to institute condemnation proceedings for the acquisition of the Parcel X49B representing the owner's remaining area of 0.569 acres and to deposit the sum of $8,900 in the Superior Court making the total sum on deposit $22,900.

Subsequent thereto, it was determined that Parcels 25C and L25E were also to be acquired which together with Parcels 25A, 25B & 25D comprise the owner's entire property. The entire property was appraised and the Reviewer's fair market value determination is $92,500, which amount the owners refused. They stated that they refused to negotiate the matter as an entire taking.

It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 25C & L25E and that the complaint already on file for the acquisition of Parcels 25A, 25B & 25D be amended to include Parcels 25C and L25E. Right of Way - Route 35

116 There is presented the matter of the condemnation of property belonging to Robert Cronheim and Marion Z. Cronheim, his wife, on Route 35, Section 10 from Morristown Road to Route 36, Parcel 63A.

At a commission hearing held on October 9, 1967 at Freehold, the owner offered testimony of the value of the taking of $39,200. The State's testimony was $18,000. The commissioners returned an award of $22,304.

The trial attorney requests permission to accept the award.

However, in view of the difference between the State's figure of $18,000 and the award of $22,304, it is recommended that the matter be appealed. (November 27, 1967)

117 Right of Way - Route 78

There is presented the matter of the commission award entered against the State in the condemnation of property on Route 78, Section 4B, Parcel 22, owned by one Eloise T. Langmack.

Fair market value is registered in the amount of $44,700. The State's expert at the hearing before the commissioners testified as to $44,700 for the taking and the damages to the remainder. The expert for the property owner testified as to $89,500 for the taking and the damages to the remainder.

The commission award is in the amount of $44,700. It is recommended that this award be approved.

There was a deposit paid into court on January 25, 1967 in the amount of the deposit, there is no payment to be made. (November 27, 1967)

118 Right of Way - Route 78

There is presented here the matter of the appeal by the State from the award of condemnation commissioners in the sum of $29,700. A judgment was entered against the State in the condemnation of property on Route 78, Section 4C, Parcels 3A, 3B, 3C, owned by Lothar Sudekum.

At the trial before the Court the owners offered testimony in the amounts of $48,000 and $41,500. The State offered testimony in the amount of $19,000. Fair market value was established in the amount of $19,000. A deposit in the sum of $19,000 was made on September 20, 1966. The verdict was in the amount of $28,600 to which the Court added interest on the entire amount at the rate of 6 per cent from December 16, 1964, the date of entry, to September 20, 1966, the date of deposit; and interest at the same rate on the sum of $9600, representing the difference between the amount of the award and the amount of the deposit, from September 20, 1966, to the date of final payment.

It is recommended that the award in the amount of $28,600 be approved and payment in the sum of $9600, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (November 17, 1967)

119 Right of Way - Route 80

There is presented the matter of a settlement by Legal Division in the condemnation of property on Route 80, Section 3D, Parcels 55A and R55B, in the Borough of Fairfield, owned by Frederic A. Demarest and Emily Corenne Demarest, his wife.

The condemnation commissioners' award was in the amount of $4,500 and a protective appeal was filed. In view of the fact that an administrative settlement had been offered in the amount of $4,300, it is deemed in the best interest of the State to settle this matter at the figure agreed upon with the owners' attorney in

the sum of $4,500 flat. No interest is to be paid. A deposit in the amount of $3,800 was paid into court.

It is recommended that the settlement in the amojnt of $4,500 be approved and that the amount of $700, being the amount over and above the deposit, be paid and that the appeal heretofore filed be dismissed. (November 17, 1967)

120 There is presented the matter of the commission award entered against the State in the condemnation of property on Route 280, Section 5, Parcel 343, owned by 99 Lincoln Avenue, Inc., a corporation of New Jersey.

The fair market value was originally registered in the amount of $24,000. After the original appraisals were received from the State's experts the property was vandalized and the State's experts Franklin Hannoch made a new appraisal of the property in its vandalized condition in the amount of $14,950. The fair market value was re-registered in the amount of $15,000. The complaint was filed on December 7, 1966 and the deposit into Court was made on that date. This was an entire taking.

The Report of Commissioners was in the amount of $27,500 and the commissioners expressed the view that their opinion of value of the premises would be before it was vandalized. The property owners expert stated that the premises had a value of $34,000.

Project Agreement - I-80-1(6)13
Route 80, Section 1H

1 It is recommended that the attached project agreement in duplicate be approved and executed for Utility Relocation for N. J. Project I-80-1(6)13.

Claims - Settlements

2 The Department of Transportation has expended the sum of $1260.00 on behalf of Marvin J. Davis for medical treatment and permanent compensation, arising out of an accident occurring on October 8, 1964 involving a vehicle owned by G & D Lumber Trucking Corporation. The medical treatment amounted to $160.00 and the permanent compensation award amounted to $1100.00. Mr. Davis retained the services of an attorney to represent him in his claim against the third party and a settlement has now been reached by the attorney with the insurance company representing the third party for the sum of $1950.00. I am enclosing, herewith, copy of a letter received from Albert M. Neiss, Esq. in connection with the Davis settlement which is self-explanatory.

In the event the State received a full settlement, after deducting statutory contributions toward counsel fees and expenses of suit, the State would realize the sum of $705.00 net. By accepting the proposed offer of settlement in the amount of $600.00 net we would actually be waiving the sum of $105.00. In the event the offer of settlement was not approved and the case proceeded to trial, the expenses chargeable to the State would undoubtedly be increased by another $50.00 which would reduce the net recovery to $655.00.

In view of the small amount we have been asked to waive and giving due consideration to the possibility that a jury might return a verdict for less than the amount now being offered, we feel the proposed offer of settlement is reasonable and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that the offer receive favorable consideration and be approved. **(December 7, 1967)**

I recommend that the jury verdict of $25,000, plus interest in the amount of $750, or a total of $25,750, less deposit made into court of $15,000, or $10,750 be paid, together with further interest as computed by the Title Bureau. Agreement - Routes 3 and 20
New Jersey Turnpike Authority

12 Approval and execution is recommended of the attached Agreement dated December 26, 1967, between the New Jersey Turnpike Authority and the State of New Jersey covering understandings in connection with the Turnpike Authority's plan to relocate two gas mains in the general vicinity of Routes 3 and 20 interchange in the Borough of East Rutherford, Bergen County.

Inasmuch as said relocation may be in the path of a future ramp proposed by the State in the above mentioned areas, the Turnpike Authority agrees to reimburse the State for any additional cost incurred as a result of the Turnpike Authority's proposed relocation of said pipeline. (January 2, 1968)

Parsons, Brinckerhoff, Quade & Douglas

16 Our Route 78 Agreement dated April 15, 1959, with Parsons, Brinckerhoff, Quade & Douglas provided for reimbursement "on a fee basis of 5.4% of a tentative estimate of cost of $2,300,000.00 until an approved working estimate is available...." The construction costs, less engineering, etc., total is $3,947,641.92. On a strict interpretation of the Agreement, therefore, the consultant could anticipate payment at the aforementioned 5.4% multiplied by the present construction cost. Our agreements, however, usually specify a ceiling limit, unless altered by renegotiations, on a declining fee basis.

A review of the file indicated that the initial proposal stipulated that any excess over the estimated cost of $2,300,000 would be compensated at a reduced rate of 4.5%. Although this condition was not presented in the Agreement, it nevertheless represents the intent of our negotiations, and will, therefore, be utilized in establishing final payment without the benefit of any additional analysis.

The total fee as per the aforementioned is $198,343.98. The previous payment was $112,276.80. A differential of $86,067.09 exists. There is slightly over $6,000 in this account so an additional $80,000 is needed to reimburse the consultant. It is recommended that this amount be set up. (January 2, 1968)

Agreement - Special Services
King and Gavaris ✓

14 Approval and execution is recommended of the attached Agreement dated January 1, 1968 between King and Gavaris Consultant and the State of New Jersey covering understandings in connection with the assigning of a Special Consultant in the employ of King and Gavaris to perform varied Special Services for the State's Division of Design.

The State will remunerate the Consultant for all services and expenses involved at a rate of $325.00 per working day, limited to one day per week as a maximum and one day per month as a minimum. It is therefore recommended that $16,900 be set up to cover work called for under this Agreement. (52 weeks X $325.00) (January 3, 1968)

Borough of Saddle River ✓

The firm has provided services wherein the reimbursement is approaching the ceiling. Since these services are still required, it is recommended that an additional $25,000 be set up for this account. This additional $25,000 will increase the ceiling on this agreement to $178,000. (January 9, 1968)

Raritan Valley Engineering ✓

16 The ceiling in our agreement with Raritan Valley Engineering for statewide engineering surveying services was arbitrarily established at $25,000. 154 Right of Way - Route 17

There is again presented the matter of the judgment entered against the State in the condemnation of property on Route 17, Section 4, Parcel 2R150, in the Borough of Hasbrouck Heights, owned by Jordan Realty Co., Inc., a corporation of New Jersey.

The complaint was filed in the above captioned matter on September 30, 1966. No deposits were made into court. The fair market value as determined by Review Section, Right of Way, was in the amount of $55,400.

Mr. Olsen and Mr. Raia testified respectively in the amounts of $50,500 and $55,400 for the taking including damages to the remainder. The property owner was represented by Mortimer Katz, Esq., who relied upon Joel Schlessinger as his real estate expert who testified that the value of the taking including damages to the remainder was in the amount of $140,800.

It was recommended that the jury verdict be appealed to the Appellate Division because of trial errors of law. Under pressure of work, the time for taking an appeal lapsed. The court ordered judgment for the payment of $107,365 plus interest at 4% per annum on $98,500 from and after July 16, 1967, until this judgment is paid.

It is recommended that the court's judgment, as just outlined, be paid together with interest as computed by the Title Bureau. (January 2, 1968)

155 Right of Way - Route 280

There is again presented the matter of the Judgment entered against the State in the condemnation of property on Route 280, Section 4, Parcels 2A & 2B, owned by John A. Paolercio.

A consent Judgment was entered in the amount of $21,000. Payment of this Judgment was recommended to the Commissioner under date of August 28, 1967 and approved by the Commissioner on August 31, 1967.

The pertinent part of the Judgment is, "in the sum of $21,000 net without interest or cost and interest not to be paid on the Judgment until from and after October 21, 1967." Since payment was not made until November 30, 1967, the owner has submitted a claim for $138 representing 6% interest from October 21 to November 30, 1967.

It is recommended that the Commissioner approve the payment of this $138. (January 3, 1968)

Right of Way - Route 36

151 There is presented the acquisition by condemnation of lands on Route 36 (1953), Section 2, Project U-111-(6), from Palmer Avenue to N A D RR and Highway Parcel 13, from Joseph P. Martini, also known as Joseph P. Montefusco, et ux.

At the jury trial, on appeal from a commission award of $35,000, the State offered testimony of $21,000 and the owner offered testimony of $117,000. The jury verdict was $33,000 to which the court added interest at 6%. The owners appeal to the Appellate Division was dismissed as premature. The State's appeal was dismissed with consent of the State since it was purely defensive.

Authority is requested to pay the judgement of $39,184.11 and interest as computed by the title division.

The request by the trial attorney for authority to pay the judgment of $39,184.11 and interest is not approved because the delay in payment of the judgment resulted by reason of the application for appeal to the Appellate Division by defense counsel. Therefore, it is recommended that the judgment of $39,184.11 be paid with interest accruing for a reasonable period after July 27, 1967, the date of entry of the judgment, a reasonable period being one month.

115 On October 7, 1963, a commission action was approved authorizing the placing on file a condemnation complaint in connection with premises on Route 80(1953), Section 5K, Project I 80-5-(12), New Jersey and New York Railroad (Erie) at Hackensack to Hackensack River, Parcels 2R188C and 191C, C. A. Hunt Engineering Company, Inc. The complaint was filed and a motion was made to dismiss on the ground that the Department was not authorized by law to acquire the branch track of the railroad involved in the proceedings.

The matter came on for hearing in December 1963, and was adjourned to January 1964, at which time Judge Leyden held that the then Highway Department had no authority to condemn these premises but held that the Railroad could do so. After a lapse of a period of time, data was eventually given to the Railroad which data was inaccurate for the purpose of the Railroad instituting action. The Railroad has recently refused to condemn and counsel for the owner who questioned the Department's right to condemn is now willing to waive such question and has requested the Department to proceed with condemnation. The Department and the owner are unable to agree on a settlement figure.

Authority is requested to file a new condemnation complaint and to deposit into court the present fair market value. (January 25, 1968)

Project Agreement - Project I-295-1(30)9
Route 295, Section 1S

1 It is recommended that the attached project agreement in duplicate be approved and executed for Utility Relocation for N. J. Project I-295-1(30)9.

The total estimated cost is $253,325.00 of which ninety percent (90%) or $220,285.10 is Federal Interstate funds. There is non-participating involved in the amount of $7,707.40.

This action will provide Federal Funds for Federal reimbursement on utility rearrangement within the subject termini. (February 5, 1968)

Claims - Settlement

2 Reference is herewith made to an accident occurring on April 1, 1965 on Route 17, Ramsey, New Jersey, involving a vehicle (1959 Chevrolet) owned and operated by Robert J. Terwilliger. As the result of said accident, Nicholas Holovacs, a Maintenance Laborer was fatally injured. The New Jersey Department of Transportation was required to make a statutory payment to the widow for the sum of $10,468.21 by way of workmen's compensation benefits. The third party at the time of the accident was an uninsured motorist and was a member of the armed forces.

The widow sought advice from two reputable attorneys with reference to taking a civil action against the third party. Both attorneys advised the widow that in their opinion no action should be taken against the third party for the reason that there was no insurance and that they could not go against the Unsatisfied Judgment Fund for the reason that this was a workmen's compensation case and therefore felt nothing could be gained by instituting an action against a young Navy man who had no financial means. I am attaching, hereto, letter received from James J. Daily, Esq., a New York attorney dated December 11 which is self-explanatory and which outlines this defendant's present financial status.

In view of the State's financial interest in this case, the Claims Bureau instituted a suit in the Superior Court for the amount of our compensation payments to the widow. No defense was entered by the defendant and a judgment by default was entered in favor of the State and against the defendant, Robert J. Terwilliger in the amount of $10,468.21. From the information contained in the attached correspondence it would appear that we have little choice but to accept the sum of $1,000 in full and final satisfaction of all claims arising out of this accident. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that the offer of $1,000 payable at the rate of $20 per month receive favorable consideration and be approved. (February 5, 1968)

Claims - Settlements

3 Raymond J. Sellnow, Engineering Aid I, Laboratory, sustained personal injuries as the result of a third party accident occurring on June 23, 1965. As the result of said injuries, the Department of Transportation expended the following sums on behalf of this employee: Temporary Compensation - $32.14, Fitkin Memorial Hospital - $28.50, Dr. William J. Wittenborn - $90.00, and Permanent Compensation - $1,540.00, making a total expenditure of $1,690.64.

This employee retained the services of an attorney to represent him in his claim against the third party. A tentative settlement has now been reached by Mr. Sellnow's attorney in the amount of $2100.00 and he has requested the State of New Jersey accept the sum of $500.00 net, in full settlement of its compensation lien. I am attaching, hereto, letter from Peter Fless, Jr., Esq. dated December 13, 1967 in connection with his offer which is self-explanatory. In the event the State received a full recovery, after allowing statutory contributions toward counsel fees and expenses of suit, the State would receive the sum of $927.09.

After giving due consideration to the small amount of medical treatment and time lost involved in this case, the Claims Bureau advised the attorney that we would consider accepting the sum of $700.00 net, in full settlement of the State's lien. We are now in receipt of a letter from the attorney advising that the State's proposal has been approved by his client, as well as, himself.

Giving due consideration to the possibility of a judgment being entered for less than the amount of the State's lien, in the event of an actual trial, which judgment would also be subject to the customary statutory deductions of counsel fees and expenses of suit, we feel the settlement figure of $700.00 net, should receive favorable consideration and it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that it be approved. (Feb. 6, 1968)

14 During our negotiations, it was obvious that establishing a ceiling was a difficult task. The fees finally accepted were based on curves established from previous cost estimates, which in general, were much lower than the fees originally requested by the consultant. It was, however, agreed that if a substantial difference occurred between the consultant's actual cost and the fee assigned the Department would reconsider payment for the overrun. This agreement was reached to prevent the utilization of factors not realistic for the next estimate and also because continuing instructions made it impossible to predict the workload requirements.

It is requested that the salary ceiling specified in PART SECOND, paragraph (a) 1. be increased by $1,348.54 plus 36.0 %, which amounts to $1,834.01, for payroll burden, increasing the ceiling specified to $10,697.01. (February 5, 1968)

Legal Items

Right of Way
Route 4, Section 2

157 There is presented the matter of the settlement of the condemnation of property on Route 4, Section 2, Parcel 11, owned by George W. Finke; et al, Borough of River Edge, Bergen County.

Fair market value had been originally registered in the sum of $13,550. The sum of $12,100 was deposited in Court, which sum was never withdrawn. Fair market value was re-registered in the amount of $24,700 and the commissioners returned an award in the amount of $26,000 which award was accepted by the State. Appeal was taken by the property owner and the matter was settled inclusive of interest in the amount of $28,000 for which figure property owner also agreed to convey to the State the remainder upon which the State appraisers had placed a value of $1,100.

Inasmuch as this settlement figure represents a more favorable result for the State than the commissioners' award, approval thereof is recommended and it is further recommended that the additional sum of $15,900 which is over the amount deposited. be paid without interest. (February 7, 1968)

Right of Way - Route 35

158 There is presented the matter of a settlement entered in the condemnation of property on Route 36, Section 8, Parcel 2R16, owned by Charles V. Carroll.

This matter came before the court on appeal from a commission award of $66,000. The fair market value was registered at $46,800. The report of the Deputy Attorney General who handled the case indicates that in a discussion with the Judge before trial, the owner produced a signed contract for the sale of comparable property at $300 a front foot which would indicate a value of $68,400 for the above mentioned property. The report indicates that first Mr. Gill and then the writer both refused to authorize settlement for $55,000. Subsequently the court suggested a settlement of $52,500 and the Deputy advises that Mr. Gill authorized settlement at this figure. There was a deposit in the amount of $46,800 paid into court on October 27, 1966.

In view of the contract above mentioned, it is recommended that the settlement in the amount of $52,500 be approved and that the difference between the settlement and the deposit, being the amount of $5,700, be paid together with lawful interest as computed by the Bureau of Titles. (February 13, 1968)

Right of Way - Route 35

159 There is again presented the matter of the judgment entered against the State in the condemnation of property on Route 35(1953) Section 8, Parcel R30, in the Township of Middletown, owned by Peter P. Frunzi.

It is recommended that the prior commission action, approved on January 26, 1968, be revoked. It is further recommended that the judgment in the amount of $9,148.44 be approved and that the difference between the judgment and the deposit, viz $2,248.44, be paid together with interest as computed by the Bureau of Titles. (February 13, 1968)

Right of Way - Route 35

1807 There is again presented the matter of the Judgment entered against the State in the condemnation of property on Route 35, Section 10, Parcel R8, in the Borough of Keyport, owned by Peter A. Alikas, sometimes known as Peter A. Alicakas; et al.

At the jury trial the owner offered testimony in the sum of $49,500.00 and the State's testimony was that the fair market value was in the sum of $22,750.00. Entry was made on March 16, 1966, and on November 3, 1966 there was the sum of $20,700.00 deposited into court which money has not been withdrawn. The court entered judgment in the sum of $22,750.00 together with interest at the rate of 6% which was computed in the sum of $2,383.51.

It is recommended that the prior commission action, approved on January 26, 1968, be revoked. It is further recommended that the verdict in the sum of $22,750.00 be approved and that the sum in excess of the amount deposited i.e. $2,050.00, together with the interest as computed by the court in the sum of $2,383.51, making a total of $4,433.51 be paid. (February 13, 1968)

Right of Way - Route 76

1812 There is presented here the matter of the appeal by the State from the award of condemnation commissioners in the sum of $4,000.00. A judgment was entered against the State in the condemnation of property on Route 76, Section 1, Parcel 839 owned by Rose Smith.

At the trial before a jury the owners offered testimony in the amount of $4,900.00 and the State offered testimony in the sum of $2,700.00. Fair market value was established in the amount of $2,700.00.

The sum of $2,700.00 was deposited in court on November 1, 1966. The verdict was in the amount of $4,200.00. There is due on the judgment the amount of $1,500.00 representing the difference between the amount of the verdict and the amount deposited into court, plus interest at the rate of six per cent per annum from November 1, 1966, the date of deposit to the date of payment.

It is recommended that the judgment of $4,200.00 be approved and that the sum of $1,500.00 over the sum of $2,700.00 deposited heretofore be paid with interest of $86.75 as computed by the court be paid together with interest at 6% on $1,586.75 as computed by the Bureau of Titles from October 17, 1967. (February 13, 1968)

It is recommended that the commissioners' award in the amount of $50,600 be approved and that the difference between the award and the deposit, being the amount of $7,200, be paid together with lawful interest as computed by the Bureau of Titles.

The taking is partial from a type of property in which court experience has been that awards generally are in excess of the State's testimony. Also, this is a large building under construction between the date of appraisal inspection and the filing of a complaint, the building is reported as having been further completed. The appraisals adjusted to the complaint date would be higher. Claim - Mount Saint Mary's College
Route 22 - Terrill Road - Interchange

6 A claim has been presented to the Legislature by the Diocese of Trenton on behalf of the Sisters of Mercy (formerly known as Mount Saint Mary's College of the Sisters of Mercy), in connection with certain unfulfilled promises made by officials of this Department in 1954. There were two acquisitions of land from Mount Saint Mary's College: one in 1954 for a jughandle, and one in 1965 for revision of this jughandle at the same location. The first acquisition destroyed two gateway pillars constructed of stone. To the best of our knowledge, no compensation has ever been provided. When the acquisition of additional property in 1965 was discussed with Bishop Ahr, Bishop of Trenton, relative to this new construction, officials of this Department again promised that the gateway pillars would be reconstructed or compensated for. Our Landscape people, at about the same time, met with the officials of the College and we installed landscaping as requested by them. This office firmly believes that we made a promise that we didn't keep. The architect for the College, presently engaged in construction work at Mount St. Mary's, has estimated that the cost of constructing the gateway will be approximately $8,000. It is hereby recommended that we pay the College of Mount St. Mary's $8,000 to remove this claim from the Legislature and to provide for the construction of new pillars flanking their driveway, to be constructed by them on their lands, as promised in 1954 and re-affirmed in 1965. (March 1, 1968)

Claims - Settlement

7 Reference is herewith made to an accident occurring on April 1, 1965 on Route 17, Ramsey, New Jersey, involving a vehicle (1959 Chevrolet) owned and operated by Robert J. Terwilliger. As the result of said accident, Nicholas Holovacs, a Maintenance Laborer was fatally injured. The New Jersey Department of Transportation was required to make a statutory payment to the widow for the sum of $10,468.21 by way of workmen's compensation benefits. The third party at the time of the accident was an uninsured motorist and was a member of the armed forces.

The widow sought advice from two reputable attorneys with reference to taking a civil action against the third party. Both attorneys advised the widow that in their opinion no action should be taken against the third party for the reason that there was no insurance and that they could not go against the Unsatisfied Judgment Fund for the reason that this was a workmen's compensation case and therefore felt nothing could be gained by instituting an action against a young Navy man who had no financial means. I am attaching, hereto, letter received from James J. Daily, Esq., a New York attorney dated December 11 which is self-explanatory and which outlines this defendant's present financial status.

In view of the State's financial interest in this case, the Claims Bureau instituted a suit in the Superior Court for the amount of our compensation payments to the widow. No defense was entered by the defendant and a judgment by default was entered in favor of the State and against the defendant, Robert J. Terwilliger in the amount of $10,468.21. From the information contained in the attached correspondence it would appear that we have little choice but to accept the sum of $1,000 in full and final satisfaction of all claims arising out of this accident.

It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that the offer of $1,000 payable at the rate of $20 per month receive favorable consideration and be approved. (March 1, 1968)

Sampson, h/w and Percy Barney and Doris Barney, h/w trading as Mercer Realty Co. Condemnation proceedings were previously authorized on October 24, 1966 at which time the owners demand was $200,000. The commission award of $69,000 was appealed.

On the date set for the trial, the trial attorney negotiated a settlement and forwarded to the Right of Way Division agreement forms executed by the owner in the amount of $64,750 including court deposit of $58,000 previously withdrawn plus a provision that interest be paid at the rate of 6% on $6,750 from and after April 8, 1968.

The matter is submitted for the Commissioner's consideration.

The fair market value as of the Date of the Complaint has been established at $62,500; therefore, the settlement is not substantially in excess of this figure.

It is requested that condemnation proceedings previously authorized be discontinued and that further authority is requested to make payment of the sum of $5,750 representing the difference between the consideration provided for in the agreement and the deposit withdrawn from the court together with interest at 6% on $6,750.00 from and after April 8, 1968 as computed by the Title Bureau. At the time condemnation was instituted for Parcel 23, the acquisition was based on the fact that the owner had access to the remainder of 13.21 acres over a 50-foot wide right of way leading to Mt. Airy Road. Subsequently, a title search determined that this 50-foot wide right of way was not a dedicated public road and our Legal Division had advised that the owner has no right in and to this proposed right of way and that the remainder of 13.21 acres is therefore landlocked.

Accordingly, new maps, descriptions, and appraisals were secured on this basis designating the landlocked remainder as Parcel 23A.

Authority to condemn, for this additional Parcel 23A, was granted on October 3, 1967 as the owner rejected a suggested total settlement of $53,000. for Parcels 23 & 23A and refused to state a demand at that time. Condemnation proceedings were previously authorized for Parcel 23A, 2R23B, and 3R23C, Panda Corporation, at which time the owner was demanding $25,000., which was considered excessive.

Subsequently, due to a map revision, Parcel 2R23B was changed to Parcel 3R23B. An additional appraisal was secured which resulted in the re-registration of Fair Market Value in the amount of $17,950. for Parcels 23A, 3R23B and 3R23C.

Negotiations were continued on this basis. The owner made a counter demand of $25,000. which is considered excessive. It is recommended that authority be granted to institute condemnation proceedings for the acquisition of Parcels 23A, 3R23B and 3R23C in fee simple subject to any public utilities existing in the premises; and that the previous action dated March 17, 1967 covering Parcels 23A, 2R23B and 3R23C be rescinded.

Should, prior to the ultimate fixing of compensation, any provisions or proceeding relating to the acquisition of these properties, delay the taking of possession and use thereof by the Department of Transportation, authority is requested to then file a declaration of taking and to deposit with the court $17,950.

Authority is therefore requested to deposit an additional sum of $13,050.00 with the Superior Court making the total sum on deposit $28,500.00.

Legal Items

Right of Way - Route 15

There is presented the matter of the settlement in the condemnation of property located on Route 15, Section 2, Parcels R62B & E62D, Township of Jefferson, owned by Ellen T. Briggs; et al.

This matter was before the court on appeal from the award of commissioners.

The fair market value had been originally registered in the sum of $21,000, said sum being deposited in court on November 22, 1967. Prior to this trial date, the fair market value was revised to $28,400. Interest on the revised fair market value from the date of the State's entry on October 3, 1964 would amount to $5,400 which would make a total of $33,800. Settlement was agreed to in the sum of $31,000 including interest. The settlement was made prior to the recent ruling that trial counsel cannot settle cases.

It is recommended that the settlement in the amount of $31,000 be approved. Further authority is requested to withdraw the deposit heretofore made into the Superior Court under Declaration of Taking. (March 12, 1968)

There was no testimony on behalf of the property owner. There was a deposit paid into court in the amount of $450.00 on July 18, 1967.

It is recommended that the award in the amount of $450.00 be approved. (March 7, 1968)

Right of Way - Route 78

There is presented here the matter of a commission award on Route 78, Section 4B, Parcels 36A, 36B & 36C owned by Philip J. Levin.

A Complaint was filed on May 10, 1966 and a deposit and Declaration were made on September 22, 1966 in the amount of $25,875. Entry occurred, however, on October 27, 1964. Three appraisals are contained in the file by Messrs. Ard, Simon, and Tuschak in the amounts of $60,000, $48,000, and $37,150 respectfully. The fair market value was established on the lowest appraisal ($37,150). The commissioners have awarded the sum of $47,500 which is within the range of two of the State's three appraisals.

The trial attorney recommended acceptance of the award. A review indicates that it is doubtful that there is sufficient documentation for the acceptance of such award. Due to a mix-up in the office, the time prescribed by the rules for taking an appeal has expired. However, there is still time for the court to grant permission in its discretion for the taking of an appeal. It is recommended that application be made to the court for the taking of such appeal from the award. (March 13, 1968)

Accordingly it is recommended that an appeal be taken in this matter. (March 12, 1968)

Fair market value was recently re-registered in the amount of $850.00. The State's expert at the hearing before the Commissioners testified as to $850.00 for the taking. There was no testimony on behalf of the unknown heirs.

There was a deposit paid into Court in the amount of $625.00 on September 29, 1967 and on January 19, 1968 Commission Action was presented whereby it was recommended that the award in the amount of $850.00 be approved and payment of the sum of $125.00, being the sum over and above the deposit in Court, be paid.

The sum of $125.00 is erroneous. The difference between the Commissioners' award and the amount deposited into Court is $225.00, and it is therefore recommended that the Commission Action heretofore approved be rescinded, and that the sum of $225.00 be paid into Court.

There is presented the matter of the award of condemnation commissioners entered against the State in the condemnation of property on Route FAI 108-2-(6), Parcel 10B, in the Township of Mount Laurel, owned by Emilie S. G. Hunt.

This case was tried before condemnation commissioners by outside counsel. The owner's testimony was in the amount of $18,466 for the taking. The State presented testimony in the amount of $13,200. A deposit was made in the amount of $7,000. Counsel recommended that no appeal be taken. Some how or other in the volume of work, the report was mislaid. Even if it were not for that factor, we would hesitate to recommend an appeal in view of the admission by the State's witness that he had evaluated adjoining land at a higher figure than he had placed on the subject property. The commissioners' award was in the amount of $15,800.

It is recommended that the award in the amount of $15,800 be approved and that the amount of $8,800, being the amount over and above the deposit in Court, be paid together with lawful interest as computed by the Bureau of Titles. (March 19, 1968)

There was a deposit paid into court in the amount of $1,000.00 on May 8, 1967. It is recommended that the award in the amount of $1,000.00 be approved. Since this money has already been deposited into court, no further payment is necessary. Date of entry was October 11, 1967 after the deposit into court. There is, therefore, no interest due. (March 19, 1968)

158 Right of Way - Route 280

There is presented the matter of the commission award entered against the State in the condemnation of property on Route 280, Section 4, Parcel 33, owned by Martha Tavener.

The award of commissioners dated February 13, 1968 was in the amount of the fair market value, namely, $14,600. It is recommended that the Commissioner approve the payment of the commissioners award and that the excess of $2600 over the original deposit be paid together with the interest from 6% from the date of the deposit of the money into court. (March 19, 1968)

159 Right of Way - Route 287

There is presented the matter of the payment of a bill covering services rendered to the Department by George E. Burke, Morris County Engineer, in connection with the condemnation of property on Route 287, Section 9, Parcel 47, owned by Elblum Holding Company.

In view of the fact that Mr. Burke's services were necessary and that he was brought in during the trial, it is requested that authority be given to pay his charge of $100. (March 19, 1968)

It is therefore recommended that this award be accepted. (March 19, 1968)

Claims - Settlement

7 The Department of Transportation had a claim against Michael Gilvary in the amount of $566.14 covering the cost of repairing traffic signal equipment which was damaged as the result of an accident occurring on October 30, 1963, involving a vehicle operated by Michael G. Gilvary. Suit was instituted against Mr. Gilvary and a Judgment by Confession was entered against him in the Monmouth County District Court in the amount of $566.14. The defendant through periodic installment payments reduced this claim to the sum of $506.14 which payments were interrupted by reason of the fact that Mr. Gilvary entered the armed services and was shipped out of the country to Vietnam.

Recent inquiry by the Claims Bureau to the attorney who represented Mr. Gilvary in our court action resulted in our being advised that the defendant is still in the armed services but was looking forward to a discharge in about three months. I am attaching, hereto, letter received from Joseph F. Mattice, Esq. which is self-explanatory with reference to his offer of settlement in the amount of $200. After discussing the offer with counsel for the Department of Transportation, the Claims Bureau advised the attorney that if the sum of $250.00 in one lump sum would be offered which represents approximately 50% of the balance of this claim, this office would make a favorable recommendation to the Commissioner that the offer of $250 be accepted. We have now received a check from the attorney in the amount of $250 tendered in full settlement of the State's claim being carried against his client.

Giving due consideration that Mr. Gilvary and his family are making a conscientious effort to settle this case in accordance with their financial ability to pay, it is our recommendation and in accordance with Mr. Levine's memorandum attached hereto and the recommendation of Deputy Attorney General William J. McCormack that the offer of settlement receive favorable consideration and be approved. (March 26, 1968)

There are unusual circumstances present in this case, since the occupancy report did not disclose the presence of a business on the premises. An inspection of the furniture and equipment indicates that $187.83 for relocation costs is reasonable.

Authority is requested to make payment to Mr. Edward M. Raynolds in the amount of $187.83 based on the receipted bill. (April 1, 1968)

Right of Way - Route 20 Freeway

143 There is presented the matter of a commission award entered against the State in the condemnation of property on Route 20F, Section 2, Parcels 2A & 2B, title to the parcel involving John Van Houten; et al.

Fair market value is registered in the amount of $2,500.00. The State's expert at the hearing before the commissioners testified to a value of $3,500.00. The property owner's expert at the hearing testified to a value of $6,500.00. A deposit of $2,500.00 was made on April 28, 1967, and has been withdrawn by the property owner. The commissioners award is in the amount of $5,000.00.

It is recommended that the award be appealed. The commission award in the amount of $5,000.00 is considered excessive.

Right of Way - Route 24 Freeway

144 There is presented the matter of the Judgment entered against the State in the condemnation of property on Route 24F, Section 12, Parcel 176, owned by Drukin, Inc.

The fair market value was registered in the amount of $40,500. The commissioners award was in the amount of $60,000. On or about August 10, 1967, a request was made for updated appraisals to the date of the filing of the complaint. The same was never received. The matter could have been settled on the date of trial for $55,000. Right of Way would not approve this.

The property owners expert stated that the value of the taking including damages to the remainder was in the amount of $99,150. The State's expert testified in the amount of $40,500.

After a five day trial the jury entered a verdict on behalf of the property owner in the amount of $99,000. It is not felt that there were any errors of law that would justify an appeal. The deposit was made into Court on this matter on or about July 13, 1966 in the amount of $40,500. The verdict being $99,000, the difference is $58,500.

It is recommended that the Commissioner approve the jury verdict plus interest on the access of the verdict over the deposit, namely, $58,500 from the date of the deposit into Court as computed by the Bureau of Titles. (April 1, 1968)

Right of Way - Route 27

145 There is presented the matter of the withdrawing of the appeal in the condemnation of property on Route 27, Section 7, Parcel 10, owned by Livingston Realty Co., Inc., a corporation of New Jersey.

The fair market value was registered in the amount of $400. The Report of Commissioners was in the amount of $400 and the property owner appealed. This is a partial taking. On the date of the trial of appeal and in open Court the attorney for the property owner stated that they were withdrawing their appeal.

An Order has been sent to the property owner consenting to the withdrawing of the appeal.

It is recommended that the Commissioner approve the withdrawing of the appeal and the payment of the commissioners award. (April 1, 1968)

Right of Way - Route 55 Freeway

146 There is presented the matter of an appeal from the award of commissioners entered against the State in the condemnation of property on Route 55F, Section 6, Parcel 39, title to the parcel involving William B. Bailey; et al.

The property owner's expert testified to a value of $6,000 to $6,500. The sum of $2,900 was deposited into Court on May 16, 1967. The commissioners award $5,500.

It is recommended that an appeal be taken from the commissioners award of $5,500. (March 26, 1968)

Right of Way - Route 80

147 There is presented here the matter of payment of interest on the excess moneys awarded by condemnation commissioners over the deposit made into Court in the condemnation of property on Route 80, Section 4E Parcel 52 owned by Wayne Estates, Inc.

By commission action dated February 7, 1968 the payment of an award in the amount of $59,000 was approved less credit for the sum of $50,000 previously deposited. No reference was made to interest. The State took possession of the property and improvements on October 5, 1965; however, the deposit was made prior thereto. By the last mentioned action, approval was granted for the payment of the additional $9,000.

Approval of the payment of interest at the rate of 6 percent on the sum of $9,000 from October 5, 1965 to the date of payment of the $9,000 is recommended. (April 1, 1968)

APRIL 3, 1968 NO. 10 - 1968

Right of Way - Route 80

148 There is presented again the condemnation of property on Route 80, Section 4E, Parcel 115, in the Borough of Totowa, Passaic County, owned by Edward L. Baur, et ux. Condemnation proceedings were authorized and a complaint was filed on December 14, 1965.

While there was an appraisal in the file for $14,400.00, the fair market value was fixed at $8,000.00 on December 21, 1963. This was later re-registered at $10,000.00 on December 14, 1964. Owner at that time was demanding $14,500.00; the State offered $10,000.00. On August 17, 1966, the commissioners duly appointed to hear the matter awarded $13,250.00. The State filed an appeal from the award which was dismissed by the court on January 13, 1967, with prejudice, because the appeal was out of time. The Commissioner on March 6, 1967, approved a commissioner action which had been submitted to him for authority to pay the award in the sum of $13,250.00 plus interest from the date of the entry to the date of payment. It is to be noted that no declaration of taking nor deposit into court were filed in this matter.

The owner demanded payment of real property taxes on the property for all of 1966 and the first quarter of 1967 in the amount of $367.00, plus interest on the award. Right of Way contended the owner was not entitled to such taxes or any interest. The owner thereupon filed an appeal in the Appellate Division of the Superior Court for such taxes and interest in addition to the amount of the award.

N.J.S.A. 20:1-13 provides that the report of commissioners duly appointed in a condemnation matter shall be plenary evidence of the right of the owner of the land or other property taken to recover the amount awarded with interest and costs, in the action or in an action in any court of competent jurisdiction to be instituted against the plaintiff after failure to pay the same for 20 days after the filing of the report, and shall from the time of the filing of the report be enforceable as a lien upon the land or property taken and any improvements thereon.

Prior to the hearing of the matter in the Appellate Division, counsel for the owner and the State were called into conference in the Court's chambers on February 28, 1968, at which time the Court indicated that the foregoing statute was very specific and recommended that the matter should be settled. Counsel for the parties conferred and reached an agreement whereby the owner waived all his claims for reimbursement for taxes upon the State paying the amount of the award with interest from September 20, 1966. The Director of the Division of Right of Way refuses to recognize the statutory provision and insists that the litigation should be continued.

The entire matter has been reviewed carefully by me. Deputy Attorney General Jennings recommended that the award of $13,250.00 be accepted because Mr. Zimel who made an appraisal of $14,400.00 was from the immediate area of the property and the Deputy deemed his opinion was entitled to more weight than the appraisal of Mr. Olson who is from another County. The matter should be settled, as aforesaid, because the State has not complied with the provisions of N.J.S.A. 20:1-13 and it is my opinion the State has no defense thereto.

The matter is hereby submitted to the Commissioner with a recommendation for approval of the settlement and authority to pay the award in the sum of $13,250.00 plus interest from September 20, 1966. (April 2, 1968)

Right of Way - Route 108

The commissioners made an award in the sum of $139,000.

It is recommended that an appeal be taken. (April 1, 1968)

The expert for the property owner testified to a value for this entire taking of $29,880. A deposit was paid into Court in the amount of $22,000.00 on September 6, 1967.

The commission award was in the amount of $25,700.00. It is recommended that an appeal be taken. (April 1, 1968)

At the hearing before commissioners the owners offered testimony in the amount of $30,260 for the taking and damages. The State offered testimony in the amount of $17,400 for the taking and damages. A deposit in the amount of $14,100 was paid into court. The award of commissioners was in the amount of $29,516.40. A protective appeal has been filed.

It is recommended that the appeal taken from the award of condemnation commissioners be approved. (April 1, 1968)

Claim - Settlement

9 The Department of Transportation has a claim against Mathews Trucking Company in the amount of $724.17 covering the cost of repairing traffic signal pole and lighting which was damaged as the result of an accident occurring on March 3, 1964. The accident involved only the vehicle owned by Mathews Trucking Company. The Claims Bureau instituted a suit against Mathews Trucking Company, and during the course of preparation for trial, an offer of $600 from the Greater New York Mutual Insurance Company was received.

Having checked with the Electrical Bureau it was found that a $36.60 allowance could be made for salvage and depreciation making a difference of $87.57.

To collect the balance of $87.57, the Claims Bureau would have to go into court which would undoubtedly cost the State more money to produce the necessary witnesses at trial than the amount we are asking to cancel, namely $87.57.

In view of the foregoing, it is our recommendation that the offer in the amount of $600 be accepted in accordance with Mr. Levine's memorandum attached hereto, and the recommendation of Deputy Attorney General, William J. McCormack, and the balance in the amount of $87.57 be cancelled. (April 5, 1968)

The State has been in possession since October 3, 1963 and the deposit was not made into Court until October 31, 1967 in the amount of $34,100. The complaint was filed on June 12, 1964.

NO. 11 - 1968

170 Right of Way - Route 95

There is presented the matter of the award of commissioners in the condemnation of property on Route 95, Section 19, Parcel 19, in the Township of Edison, Middlesex County, owned by Paula Yonda, a minor; et al.

At the hearing before commissioners, the owner presented no testimony and the State offered testimony in the amount of $6000.00, which was the fair market value.

There was a deposit paid into Court on April 19, 1967 in the amount of $6,000.00, which amount was not withdrawn.

The Commissioners' award was in the amount of $6,000.00.

On March 19, 1968 a commission action was approved, which said commission action erroneously set forth that the sum of $2000.00 had been deposited into court, and it was recommended that the award be approved and that amount, less the deposit of $2000.00, viz. $4000.00, be paid with interest as computed by the Bureau of Titles.

This being an error, it is recommended that the commission action of March 19, 1968 be rescinded, and that the award of $6000.00, as set forth above, be approved without interest. (April 5, 1968)

Claim - Settlement

4 James M. Allen, Sr. and Charles Russo, employees of the Department of Transportation sustained personal injuries arising out of a third party accident occurring on June 25, 1964. As the result of said injuries the State was required to expend the sum of $3,421.69 for medical treatment rendered and compensation payments made on behalf of Charles Russo, and in the case of James Allen, the sum of $2,359.66 was expended by way of medical treatment and compensation payments made. The State's total compensation lien, therefore, arising out of this accident totals $5,781.35.

Suit was instituted on behalf of these two employees against the third party by Marcus & Levy, Esqs., Paterson, New Jersey and at a recent pretrial hearing it was suggested by the Judge that the case be settled for $6,000; $2,000 for the State, $2,000 for the attorney and $2,000 for the employees, inasmuch as, there appeared to be a serious question as to liability. Subsequent negotiations by the Claims Bureau has now resulted in an offer of $2,500 net, in full settlement of our compensation lien. I am attaching, hereto, letter received from Marcus & Levy, Esqs. dated March 25, 1968 with reference to the proposed settlement which is self-explanatory.

In the event of a full settlement, after granting the statutory allowances for counsel fees and expenses of suit, we would net the sum of $3,654.23. As Mr. Marcus points out, that in the event of an actual trial, he is fearful that the jury might return a verdict of "no cause for action". This could very well happen in the case of James M. Allen, Sr. who was operating the State vehicle at the time of the accident.

In view of the serious question of liability as outlined in Marcus and Levy, Esqs. recent communication, it is our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that the offer of settlement receive favorable consideration and be approved. (April 9, 1968)

Claim - Settlement

5 The Department of Transportation has a claim against Carrier Rentals Inc., in the amount of $185.97 covering the cost of repairing guard rails demolished by one of their trucks on February 15, 1965.

The Claims Bureau has received an offer of $130 from the Cosmopolitan Mutual Insurance Company in full settlement of this claim.

Our records indicate that the wooden guard rails in question were replaced by steel guard rails. Mr. Arthur Willmott of the Department of Transportation advised that the cost of steel rails would be considerably higher than wooden rails and recommended that we accept the offer of $130.

In view of the foregoing, it is our recommendation that the offer in the amount of $130 be accepted in accordance with Mr. Levine's memorandum attached hereto, and the recommendation of Deputy Attorney General, William J. McCormack, and the balance in the amount of $55.97 be cancelled. (April 10, 1968)

Claim - Settlement

6 The New Jersey Department of Transportation is carrying a claim against the W. J. Casey Trucking and Rigging Co., Inc. in the amount of $7,865.00 arising out of an accident occurring on May 21, 1964 involving a Tractor Trailer owned by the above Company and operated by Frank A. Biondi. On the date in question the vehicle owned by the above named debtor was carrying a huge boiler on a low bed trailer and while attempting to go under the Thompson Street Overpass on Route 22, struck two of the girders causing damage which had to be repaired. Repairs were made by William F. Hegarty, Inc., Livingston, New Jersey at a total cost of $7,865.00.

The insurance company for the trucking company refused to honor our claim as submitted and offered the sum of 50% in full settlement of our claim. The offer of settlement was immediately rejected and a suit was instituted by the Claims Bureau in the Superior Court of New Jersey. Recent negotiations between the Claims Bureau and the attorney representing the insurance carrier has now resulted in an offer of $7,000. The offer of settlement was discussed with counsel to the Department of Transportation who felt the offer was reasonable and recommended that it be accepted.

In the event we continued with our suit, in order to make a full recovery it would be necessary for us to bring in the contractor, some of his employees, as well as, other State Highway Department employees in order to prove our case. Giving due consideration to the cost in money, as well as, time to bring our witnesses to court, we feel the best interest of the State will be served if the offer of $7,000 is accepted. It is therefore our recommendation and in accordance with Mr. Levine's memorandum attached, hereto, and the recommendation of Deputy Attorney General William J. McCormack that this offer receive favorable consideration and be approved. (April 17, 1968)

Legal Items

Right of Way - Route 24 and Route 78

120 There is presented again the matter of the jury verdict entered against the State in the condemnation of property on Route 24, Section 13, Parcel 2 and Route 78, Section 5B, Parcels 2R33A, R33B and R34, owned by William F. Dobrowsky; et al.

On November 20, 1967 a Department action slip was submitted in which the property was described as Route 78, Section 5B, Parcel 34, which designation was found to be incorrect and should have been designated as Route 24, Section 13, Parcel 2 and Route 78, Section 5B, Parcels 2R33A, R33B and R34.

It was recommended that the Department action slip dated November 20, 1967 be corrected as to the above indicated routes, sections and parcels, which Department action slip was approved by the Commissioner. However, the said Department action slip of November 20, 1967 further stated, among other things, that the fair market value was registered in the sum of $19,400.00 and that on August 24, 1966 the sum of $15,000.00 had been deposited into court, and the said matter was tried before a jury on appeal from the commissioners' award on November 6, 1967 and that the jury verdict was in the sum of $25,000.00.

It was recommended that the jury award be approved with interest in the amount of $750.00 and that the jury verdict of $25,000.00 plus interest in the sum of $750.00, or a total of $25,750.00, less the deposit of $15,000.00 made into court, or $10,750.00 be paid, together with further interest as computed by the Title Bureau.

This commission action was in error. It is therefore recomended that said commission action of December 27, 1967 be rescinded.

An amended judgment was entered in court on March 11, 1968 in the sum of $25,950.00, less the credit for the deposit of $15,000.00 or the amount of $10,950.00 plus costs and one-half of the cost of transportation of the jury for the purpose of viewing the premises to be paid by each party, and said $950.00 being the interest computed from August 24, 1966 to March 11, 1968, which is in the amount of the aforesaid $950.00.

It is therefore recommended that the said sum of $10,950.00 be paid with interest to be computed from the 11th day of March, 1968 to the date of payment, as computed by the Title Bureau, together with costs and less one-half the cost of transportation of the jury.

121 There is presented the matter of a commission award entered against the State in the condemnation of property on Route 35, Section 8, Parcel 51A, title to the parcel involving Louis K. Timolat; et al.

Fair market value was re-registered in the amount of $7,600. The State's expert at the hearing before the commissioners testified to a value of $7,600. The property owner offered no evidence as to value, and stated that the stipulated amount was agreeable if the trees could be saved. At the hearing before commissioners, the State's engineer testified that the trees would be in the roadbed, and must be destroyed. A deposit of $7,000 was paid into Court on September 28, 1967. The commissioners awarded $7,600.

It is recommended that the award in the amount of $7,600 be approved, and that payment in the sum of $600, being the amount over and above the deposit, be paid together with lawful interest as computed by the Bureau of Titles. (April 15, 1968)

This deputy is no longer with the department and left no information as to what occurred on his appearance. The commissioners set the matter down for another date on which day, by reason of general engagements throughout the office, there was no deputy available to complete the case. However, a deputy was in appearance to protect the State's right to appeal.

The fair market value was in the amount of $2,100. The commissioners' award is in the amount of $7,000.

It is recommended that an appeal be taken from the award of commissioners. (April 15, 1968)

It is recommended that this award be approved. Since the amount of the award and the deposit is equal, no payment is necessary. (April 15, 1968)

The property owner's expert testified to a value of $20,800. The sum of $1,850 was deposited into Court on December 1, 1965. The commissioners award is $7,000.

At the hearing before the commissioners the State presented its first witness Nick Tuozzo; then presented Warren Orpen, who testified to the fair market value of $3,400.00. Commissioners awarded the sum of $3,400.00.

There was a deposit paid into court in the amount of $1,150.00 on May 1, 1967. It is recommended that the award in the amount of $3,400.00 be approved and payment in the sum of $2,250.00, being the amount over and above the deposit in Court, be paid. (April 17, 1968)

The State's expert testimony would be in the amount of $113,500. The property owner's expert was to testify in the amount of $175,000. This case is more than two years old and the trial cost would be in excess of $2,000.

After a conference with the attorney for the property owner and James V. Hyde, Director, Right of Way and with his concurrence the matter could be settled for $120,000.
